SAFETY DATA SHEET
Version 3.0
Revision Date 1/27/2017

1. IDENTIFICATION

   Product Identification
   Product Name: Mouse Inflammation Array C1
   Catalog Number: AAM-INF-1

   Usage
   This product is furnished for LABORATORY RESEARCH USE ONLY. Not for diagnostic or therapeutic use.

   Supplier Identification
   Company: RayBiotech, Inc.
   3607 Parkway Lane, Suite 100
   Norcross, GA 30092
   USA
   Telephone: 1-888-494-8555 (Toll Free); 770-729-2992
   Fax: 770-206-2393
   Website: www.RayBiotech.com
   Email: info@raybiotech.com

   Emergency Telephone Number
   Emergency Phone #: 1-888-494-8555

2. HAZARDS IDENTIFICATION

   Hazardous Ingredients
   1. The 2X Cell Lysis Buffer contains Triton-X-100.

   OSHA/HCS status
   This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

   Classification of the substance or mixture
   Triton-X-100 (lysis buffer): Acute Toxicity

   GHS Label Elements

   Hazard Pictograms

   Signal Word/s: Warning

   Hazard Statements
   Triton-X-100 (lysis buffer): Harmful if swallowed; Risk of serious damage to eyes; Irritating to skin.
   IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
   EYE CONTACT: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
   SKIN CONTACT: Wash with clean water or soap and water.
   INHALATION: Move to an outside area and breath fresh air. Clear the nose by blowing.

   Response
   Not applicable.

   Storage
   Not applicable.

   Disposal
   Not applicable.
3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS Numbers/other identifiers

<table>
<thead>
<tr>
<th>Ingredient Name</th>
<th>%</th>
<th>CAS Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Triton-X-100</td>
<td>1-3</td>
<td>9002-93-1</td>
</tr>
</tbody>
</table>

Any percentage shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. FIRST-AID MEASURES

Description of Necessary First Aid Measures

<table>
<thead>
<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Eye Contact</strong></td>
</tr>
<tr>
<td>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.</td>
</tr>
<tr>
<td><strong>Skin Contact</strong></td>
</tr>
<tr>
<td>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing and clean shoes before reuse.</td>
</tr>
<tr>
<td><strong>Inhalation</strong></td>
</tr>
<tr>
<td>Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.</td>
</tr>
<tr>
<td><strong>Ingestion</strong></td>
</tr>
<tr>
<td>Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.</td>
</tr>
</tbody>
</table>

Over-Exposure Signs/Symptoms
No specific data.

Notes to Physician
Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific Treatments
No specific treatment

Protection of First-Aiders
No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

5. FIRE FIGHTING MEASURES
Extinguishing Media

Use an extinguishing agent suitable for the surrounding fire, such as water spray, carbon dioxide, dry chemical powder or appropriate foam. Prevent contact with skin and eyes.

Chemical Hazards from Fire

In a fire or if heated, a pressure increase will occur and the component containers may burst.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

| For Non-Emergency Personnel | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For Emergency Responders | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel" above. |
| Environmental Precautions | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Protective Equipment | Wear respirator, chemical safety goggles, rubber boots and rubber gloves. |

Methods and Materials for Containment and Cleaning Up

| Small Spill | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large Spill | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

7. STORAGE AND HANDLING

Storage

Store the entire kit frozen at -20°C upon arrival.

Handling

Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Permissible Exposure Limits (PELs)

This product does not contain any hazardous materials with occupational exposure limits established by theregion specific regulatory bodies.

Appropriate Engineering Controls
Protective Equipment
Wear suitable protective clothing, including gloves, safety glasses, dust mask, and a laboratory coat.

Special Precautions
Not for human or drug use. Not for household use.

9. PHYSICAL AND CHEMICAL PROPERTIES
Appearance Clear, colorless
Odor Odorless
Physical State Liquid
pH N/A
Boiling Point N/A
Melting Point N/A
Freezing Point N/A
Vapor Pressure N/A
Vapor Density N/A
Specific Gravity N/A
Evaporation Rate N/A
Solubility in Water N/A
Odor Threshold N/A
Coefficient of Water/Oil Distribution N/A

10. STABILITY AND REACTIVITY
Chemical Stability Stable under normal handling procedures.
Hazardous Reactions Under normal conditions of storage and use, hazardous reactions will not occur.

11. TOXICOLOGICAL INFORMATION
Acute toxicity

<table>
<thead>
<tr>
<th>Ingredient Name</th>

</tbody>
</table>

Carcinogenicity Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65;
Sensitization Not Available
Mutagenicity Not available
Reproductive Toxicity Not Available
Specific target organ toxicity (single exposure) Not available
Specific target organ toxicity (repeated exposure) Not available
Aspiration hazard Not available
Likely routes of exposure Routes of entry anticipated: Oral, Dermal, Inhalation.
Potential acute health effects Triton-X-100 (lysis buffer): Risk of serious damage to eyes.
Inhalation
Ingestion
Skin Contact Triton-X-100 (lysis buffer): Skin irritant.

12. ECOLOGICAL INFORMATION
Ecotoxicity No data available
Persistence and degradability No data available
Bioaccumulation/accumulation No data available
Mobility in environmental media No data available
Other hazardous effects May be harmful to the environment, particularly aquatic organisms.

13. DISPOSAL CONSIDERATIONS
Disposal methods Disposal should be in accordance with applicable national, state, and local laws and regulations. Local regulations may be more stringent than national or state requirements. Verify local and state regulations before discharging into public sewers or landfills. Do not dump into any body of water. Contact a licensed professional waste disposal service for appropriate methods of disposal.

14. TRANSPORT INFORMATION
DOT Not dangerous goods.
IATA Not dangerous goods.
ADR Not dangerous goods.

15. REGULATORY INFORMATION
United States (TSCA) All ingredients are on the inventory or exempt from listing.
Canada (DSL / NDSL) All ingredients are on the inventory or exempt from listing.
SARA 302 Components Triton-X-100 (lysis buffer): CAS 9002-93-1
SARA 313 Components Triton-X-100 (lysis buffer): Concentration <3%
SARA 311/312 Hazards No known hazards.
California Prop. 65 Components This product does not contain any Proposition 65 chemicals.

16. OTHER INFORMATION
The above information was obtained from sources available at the time of revision and believed to be accurate and reliable. The information included is not intended to be all inclusive and should only be used as a guide. RayBiotech shall not be held liable for any damage resulting from use, handling, or contact with the above product.
