1. IDENTIFICATION

Product Identification

Product Name: Human NF-KB p50 Transcription Factor Activity Assay
Catalog Number: TFEH-p50

Kit Components

Usage
This product is furnished for LABORATORY RESEARCH USE ONLY. Not for diagnostic or therapeutic use.

Supplier Identification

Company: RayBiotech, Inc.
3607 Parkway Lane, Suite 100
Norcross, GA 30092
USA

Telephone: 1-888-494-8555 (Toll Free); 770-729-2992
Fax: 770-206-2393
Website: www.RayBiotech.com
Email: info@raybiotech.com

Emergency Telephone Number

Emergency Phone #: 1-888-494-8555

2. HAZARDS IDENTIFICATION

Hazardous Ingredients

1. The Stop Solution contains Sulfuric Acid.

OSHA/HCS status
This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture
Sulfuric Acid (Stop Solution): Skin Corr./Irrit. 1A (H314)

GHS Label Elements

Hazard Pictograms

Signal Word/s: Warning

Hazard Statements
Sulfuric Acid (Stop Solution): Causes skin irritation (H315); Causes serious eye irritation (H319)
IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.
EYE CONTACT: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
SKIN CONTACT: Take off immediately all contaminated clothing. Rinse skin with water/shower.
INHALATION: Move to an outside area and breathe fresh air. Clear the nose by blowing.

Response

Storage
Not applicable.

Disposal
Not applicable.

Hazards not otherwise classified
None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS Numbers/other identifiers

4. FIRST-AID MEASURES

Description of Necessary First Aid Measures

<table>
<thead>
<tr>
<th>Eye Contact</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.</td>
</tr>
<tr>
<td>Skin Contact</td>
<td>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing and clean shoes before reuse.</td>
</tr>
<tr>
<td>Inhalation</td>
<td>Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.</td>
</tr>
<tr>
<td>Ingestion</td>
<td>Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.</td>
</tr>
</tbody>
</table>

Potential Acute Health Effects

Eye Contact
Sulfuric Acid (Stop Solution): Causes serious eye damage (H319)

Skin Contact
Sulfuric Acid (Stop Solution): Causes skin irritation (H315)

Over-Exposure Signs/Symptoms
No specific data.

Notes to Physician
Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific Treatments
No specific treatment

Protection of First-Aiders
No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

5. FIRE FIGHTING MEASURES

Extinguishing Media
Use an extinguishing agent suitable for the surrounding fire, such as water spray, carbon dioxide, dry chemical power or appropriate foam. Prevent contact with skin and eyes.

Chemical Hazards from Fire
In a fire or if heated, a pressure increase will occur and the component containers may burst.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

| For Non-Emergency Personnel | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For Emergency Responders | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel" above. |
| Environmental Precautions | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Protective Equipment | Wear respirator, chemical safety goggles, rubber boots and rubber gloves. |

Methods and Materials for Containment and Cleaning Up

| Small Spill | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large Spill | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

7. STORAGE AND HANDLING

Storage
Store the entire kit frozen at -20°C upon arrival.

Handling
Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Permissible Exposure Limits (PELs)
This product does not contain any hazardous materials with occupational exposure limits established by the regional specific regulatory bodies.

Appropriate Engineering Controls
Showers
Eyewash stations
Ventilation systems

Protective Equipment
Wear suitable protective clothing, including gloves, safety glasses, dust mask, and a laboratory coat.

Special Precautions
Not for human or drug use. Not for household use.

9. PHYSICAL AND CHEMICAL PROPERTIES

</table>

10. STABILITY AND REACTIVITY

Stable under normal handling procedures.

Under normal conditions of storage and use, hazardous reactions will not occur.

Carcinogenicity: Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65

Sensitization: Not Available

Mutagenicity: Not available
Reproductive Toxicity
Not Available

Specific target organ toxicity
(single exposure)
Not available

Specific target organ toxicity
(repeated exposure)
Not available

Aspiration hazard
Not available

Likely routes of exposure
Routes of entry anticipated: Oral, Dermal, Inhalation.

Potential acute health effects

Eye contact
Sulfuric Acid (stop solution): Risk of serious damage to eyes.

Inhalation
No known significant effects or critical hazards.

Ingestion
No known significant effects or critical hazards.

Skin Contact
Sulfuric Acid (stop solution): Skin irritant or corrosion.

12. ECOLOGICAL INFORMATION

Ecotoxicity
No data available

Persistence and degradability
No data available

Bioaccumulation/accumulation
No data available

Mobility in environmental media
No data available

Other hazardous effects
May be harmful to the environment, particularly aquatic organisms.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable national, state, and local laws and regulations. Local regulations may be more stringent than national or state requirements. Verify local and state regulations before discharging into public sewers or landfills. Do not dump into any body of water. Contact a licensed professional waste disposal service for appropriate methods of disposal.

14. TRANSPORT INFORMATION

DOT
Not dangerous goods.

IATA
Not dangerous goods.

ADR
Not dangerous goods.

15. REGULATORY INFORMATION

United States (TSCA)
All ingredients are on the inventory or exempt from listing.

Canada (DSL / NDSL)
All ingredients are on the inventory or exempt from listing.

SARA 302 Components
Sulfuric Acid (Stop Solution): CAS 7664-93-9

SARA 313 Components
Sulfuric Acid (Stop Solution): Concentration <3%

SARA 311/312 Hazards
Sulfuric Acid (Stop Solution): Health hazard - Skin corrosion or Irritation

California Prop. 65 Components
Sulfuric Acid (Stop Solution): WARNING: This product contains a chemical known to the State of California to cause cancer.

16. OTHER INFORMATION

The above information was obtained from sources available at the time of revision and believed to be accurate and reliable. The information included is not intended to be all inclusive and should only be used as a guide. RayBiotech shall not be held liable for any damage resulting from use, handling, or contact with the above product.
